=====**FUR DYEING.**=====

*Not only for the beauty of the fur, but also for its durability, it is of the utmost importance that only the best dyes should be used in the preparation of skins. The best Sealskins are of English dye—no other dyes have been found to give complete satisfaction in this respect.*

*All the Sealskins used by W. H. Hall are of English dye, and may be relied upon as being the best to be had in the market.*

## SEASON 1889-1890.

---

We beg to present our Annual Fashion Plates of various styles of Ladies' Sealskin, Seal Plush, Cloth, and Fancy Garments, also Gents' Overcoats, Sleigh Robes, Caps, Gloves, Collars, Coachmen's Capes, Foot Muffs, and everything appertaining to the Fur line, adapted for the present season. All Seal garments manufactured by us are genuine Alaska Sealskin, London dyed and dressed, and by giving our personal attention to each article manufactured in our work-rooms, we are enabled to guarantee perfect fitting garments, of superior workmanship, at the lowest prices, thus insuring us a reputation which we have retained for the past thirty-three years, and shall endeavor to maintain.

Our Designing Department is an important feature with us, so that at present we stand unequalled by any fur house. We pay particular attention to all orders by mail. We respectfully solicit a call, or your order, which shall have our best attention.

Yours respectfully,

W. H. HALL.

FIG. 1. SEALSKIN SACQUE, LONDON DYED.  
36 TO 45 INCHES LONG.  
\$145 TO \$175.  
WITH OR WITHOUT BUTTONS.

SELF-MEASUREMENT CHART SENT ON APPLICATION.

W. H. Hall, Manufacturing Furrier, 261 and 263 Greenwich St., New York.

# MOTHALINE CLOTH

## AND MOTHALINE CLOTH POCKETS

### THAT WILL LAST FOR A LIFETIME.

For the Protection of Sealskin and Plush Sacques, Sealskin, Plush, and Cloth Newmarkets, Wraps, Jackets, Overcoats, Fancy Furs, Carriage and Sleighing Robes, Clothing, Carpets, Woolen Goods, Furniture, and every Household article liable to be attacked by moths.

**Mothaline Cloth will last**, as it will retain its odor and efficiency for a lifetime, and, therefore, to protect from one hundred to five hundred dollars worth of wearing apparel or household goods from moths will not cost over five cents per annum.

The odor of **Mothaline Cloth** will be found very pleasant and healthful to breathe, as the chemicals used in its manufacture are among the most powerful agents used for sanitary purposes. The odor is so pleasant and its sanitary qualities so great that many persons afflicted with malaria, throat troubles, and those especially susceptible to contagious diseases, carry a small piece continually in their pockets and on their persons.

**Sealskin and Plush Sacques especially**, and all other fine garments, should never be laid down or packed away, as it injures the nap by crushing it, and at the same time wrinkles and glazes them.

To secure them absolutely free from moths and preserve their rich and beautiful appearance, they should be hung up inside of a **Mothaline Cloth Pocket**. A **Mothaline Cloth Pocket** is an article made of an **absolutely moth-proof fabric**. They are made of various sizes to fit over **Sealskin and Plush Sacques, Wraps, Jackets, Newmarkets, Ulsters, Dolmans, Overcoats**, and wearing apparel of every description.

It is perhaps unnecessary to repeat what is so generally understood by those having fine garments, such as **Sealskin and Plush Sacques, Wraps, Dresses, Overcoats**, and other fine winter garments, that one of the most difficult problems to solve is how to preserve them during the summer, so that when they are needed again their rich and beautiful appearance will not have been impaired or destroyed, either by moths, crushing, rubbing, pressing the nap and glazing it or wrinkling them, which is invariably the case if they have been packed away or hung up carelessly during the summer with other goods.

**There has never been a way discovered** or any article invented by which fine garments could be preserved easily and conveniently, and at the same time securely, till the invention of the **Mothaline Cloth Pocket**, and the result was that, when they were taken out of their hiding places when they were needed again, they were found to be so badly injured by either moths, rubbing, pressing, and crushing the nap or wrinkled, that they were unfit to wear till they had been sent to the manufacturer again to have them doctored, which could never restore them or undo the injury. But since the invention of the **Mothaline Cloth Pockets**, and also the cloth in pieces of one, two, three, five, ten, and twenty yards, every difficulty that stood in the way of handling and preserving these goods, including all other kinds of **Wearing Apparel, Household Goods, Carriage and Sleighing Robes, Blankets, Furniture, etc.**, has passed away. And every article, however fine and delicate or difficult to preserve it may be, can be **disposed of in a moment** and hung up anywhere with the fullest assurance that they will be **perfectly safe**, and that when they are needed again next season they will be **in as good condition as when they were laid aside in the spring**.

This is just exactly what **Mothaline Cloth** and the **Mothaline Cloth Pocket** will do. A fine Sealskin or Plush Sacque, Wrap, Fur Overcoat, or any other fine garment may be placed in a **Mothaline Cloth Pocket** and hung up anywhere till next winter with absolute certainty that it will be safe from moths, dust, fading, wrinkling, crushing, or ruffling the fur; and, unlike all other pretended but useless remedies which last for a season, **it will retain its efficiency and last a lifetime**.

#### SIZES AND PRICES OF MOTHALINE CLOTH POCKETS; ALSO PER SQUARE YARD.

**Mothaline Cloth Pockets**, especially adapted for the protection of Sealskin, Plush, Cloth, Silk, Velvet, Woolen, Fur, and every description of fine Jackets, Wraps, etc., not over thirty-two inches long, or twenty-eight inches wide. Size of Pocket thirty inches wide and thirty-six inches long. Price, 60 cents each.

**Mothaline Cloth Pockets**, especially adapted for the protection of Sealskin and Plush Sacques, Wraps, Fur, and Woolen Overcoats, and every article or number of articles not over forty-seven inches long or twenty-eight inches wide. Size of Pocket thirty inches wide and fifty inches long. Price, 75 cents each.

**Mothaline Cloth Pockets**, especially adapted for the protection of Sealskin, Plush, and Cloth Newmarkets, Dolmans, Ulsters, and long garments, and every article or number of articles not over seventy inches long or twenty-eight inches wide. Size of Pocket thirty inches wide and seventy-two inches long. Price, \$1.00 each.

**Mothaline Cloth**, per yard, in rolls of one, two, five, ten, and twenty yards, thirty-six inches wide. Price, 25 cents per yard. Packages containing ten yards, \$2.25.

Sold by notion, dry goods, clothing, fur, hat, drug, and other houses throughout the country.

Patented February 22d, 1876.

Copyrighted April 6th, 1877.

EUROPEAN AGENCY,

PARIS, FRANCE.

## CLOTH & MOTHALINE CLOTH POCKETS

AN ABSOLUTE MOTH PREVENTIVE

THAT WILL LAST FOR A LIFETIME.

For the protection of Sealskin and Plush Sacques, Sealskin, Plush, and Cloth Newmarkets, Wraps, Jackets, Overcoats, Dress Suits, Fancy Furs, Carriage and Sleighing Robes, Clothing, Carpets, Woolen Goods, Furniture, and every Household article liable to be attacked by Moths.

Illustrations showing the very simple and inexpensive manner of preserving garments and wearing apparel of every description during the summer, so that when they are needed again their rich and beautiful appearance will not have been impaired or destroyed, either by moths, crushing, rubbing, pressing the nap and glazing it, or wrinkling them, which is invariably the case if they have been packed away or hung up carelessly with other goods.

## How to Save Your Furs and Plush Garments.

Great care should be taken of Sealskin and Plush garments during the Summer and Fall months. For the past thirty-three years we have received these goods on storage, and assumed every risk of their safe keeping, such as fire, moth, and against all damage, at small expense. We have storage safes expressly constructed in our immense warehouses, where we hang up every garment intrusted to our care, and when you want it back send us a postal card, and it will be returned to you in as good order as when we received it. Should you prefer to keep it yourself we have a patented Mothaline Cloth Pocket. See page 24.

---

## Repairs.

If your garments need altering or repairing, have it attended to in the summer months, for the following reasons: First, *economy*; as it will cost you less at this season of the year when labor is cheap and very little repairing to be done, and also to avoid the delay of trying to get it done when the busy season sets in; and how pleasant it is to have a warm garment ready to put on at the first cold snap.

## How to Order Goods.

In ordering goods please mention number of Figure in book, also be particular and give correct bust measure, length of arms, length of waist at back, and hip measure. Goods will be sent C. O. D., with privilege of examination; or, if money is sent for price of garment, goods will be sent giving you three days' time for examination, etc., then if not satisfactory can be returned and money will be refunded, less express charges.

All orders received from correspondents will receive careful attention, and every article shipped shall be one that will recommend other customers. Buying in large quantities for spot cash, and manufacturing our own goods with small expenses, we are enabled to sell strictly reliable goods as low as any house in America.

Any order which you may send us will be filled to the best of our ability and your entire satisfaction.

Very respectfully,
